Driffield's Medical Centre enjoys Crescendo's professional Digital Dictation Workflow Solution

UK Driffield's Medical Centre installs Crescendo's renowned DigiScribe-XL digital dictation workflow system.

Sunbury-on-Thames, UK – September 29th 2008 – The Medical Centre, Driffield. Dr Crawford and Partners is a busy GP practice in the North East of England, with the main surgery in Driffield and a branch in nearby Wetwang.

After installing Crescendo's renowned **DigiScribe-XL** digital dictation workflow solution, the medical centre has improved its patient service dramatically by reducing the time taken to create reports, referrals and correspondence.

"**DigiScribe-XL** has improved the working time of the admin team due to the visual aspect of the system. We can now see at a glance the priority of the tasks, can check for ourselves and the doctors if tasks have been requested, completed or deleted. **DigiScribe-XL** is totally controllable and its information retrievable capabilities act as a valuable back up facility for all users", comments the Admin Team.

Practice Manager, Gill Dowson adds, "Over and above that the admin team no longer have to wait for dictations to arrive from the branch surgery. Crescendo's real time dictation system allows the doctors to, create, record, play back, edit and manage their work from any location. From a security point of view there is no danger of any important patient data getting lost or mislaid, as all the dictations are stored directly on our central server."
